

# STARGATE Workshop 4

Multi-source and multi-scale phenomic data integration and organization in information systems

## STARGATE

Sensors and daTA tRaining towards high-performance Agri-food sysTEms

**Target Group** | 25 researchers from or connected to the STARGATE partner organisations.

**Aims** | To provide theoretical key elements and practical solutions for dealing with multi-source and multi-scale data in plant phenomics.

**Fees** | The workshop includes lunch. Fees, travel and accommodation costs are provided free of charge for STARGATE partner organisations.

**September 8<sup>th</sup>  
and 9<sup>th</sup> 2022  
REGISTRATION**

**Date** | **September 8<sup>th</sup> and 9<sup>th</sup> 2022**  
**face-to-face activities:** theoretical and practical sessions on INRAE Montpellier, France

**Organisation** | Dr. Llorenç Cabrera-Bosquet, INRAE Montpellier, France

This Project received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 952330.
